VINCI

HOW IT WORKS

Meet someone. *They tap.* They have you.

Each sticker holds a tiny NFC chip, the same technology as tap-to-pay. We program it with the address of your personal page, so any modern iPhone or Android phone opens it in a second.

I

Tap

The other person holds their phone near your sticker: on the back of your phone, your desk or your counter.

II

Your page opens

Your personal page appears on their screen. Nothing to download, nothing to type.

III

They save you

One button adds your name, number and email to their contacts. They call, text or book you whenever they are ready.

WHERE PEOPLE PUT THEIR 5 STICKERS

- Back of the phone
- Desk or reception
- Shop counter
- Laptop or tablet
- Car or work van
- Front door

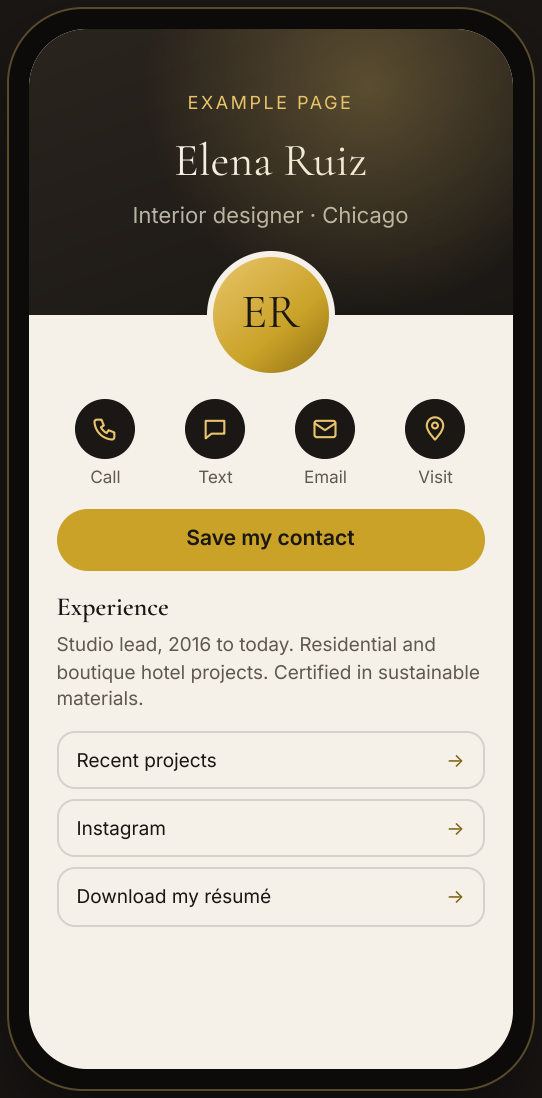

> Your page always has the same address. When something changes (a new number, a new service, a new photo), we update the page and every sticker shows the new version. Nothing to reprint.

VINCI

INCLUDED IN THE PRICE

Your card, *extended into a page* that is entirely yours.

A paper card gives a name and a number. Your VINCI page tells people who you are. It is the natural extension of your card: the sticker is the door, the page is the room behind it.

- **Your photo, name and title.** The first thing people see, in your colors.
- **Who you are.** A short story, your experience, your résumé: as much or as little as you want.
- **What you offer.** Services, projects, a small gallery of your work.
- **One-tap contact.** Call, text, email, directions, and a "Save my contact" button.
- **Your links.** Website, booking, Instagram, LinkedIn, reviews, anything you use.

Made to measure, never a template

We design each page by hand around the person: your colors, your fonts, your words. We can add gentle animation, a short video or a signature detail so the page feels like you and nobody else.

VINCI

WHY A LAUNCH PRICE

A young studio, *building its name* one client at a time.

VINCI Agency is a new studio from California's Central Coast and Kern County. We build websites, films and digital tools for local businesses and the people behind them. While we grow, our first clients get launch prices that are well below our standard rates. The one-time price you agree to is the price you pay.

GETTING STARTED

I

Say hello

Call or text us. We ask a few questions about you and what you want the page to say.

II

Send your material

A photo, your bio or résumé, your links. We write and polish the words with you.

III

Review your page

You see the design before anything is final, and we adjust it until it feels right.

IV

Tap and share

Your page goes live and your 5 stickers arrive programmed and ready to stick.
